Council Corner

The May council meeting was focused on ways to improve the one mile stretch of Maybee-Scofield road from Raisin St. To Doty Rd and around the curve to Zink Rd. The council agreed on a plan that should make the road safer and smoother. The construction will be handled by Cadillac Asphalt with the engineering being provided by Mannik and Smith. President Gaylor was directed to meet with the two companies and work out the final details and lock in the cost for the project and when the project would start. When this road is completed, 85% of the roads in Maybee will have been repaved since 2004.
